

SHIMA GAMAL MOHAMED MOSTAFA

AI & Software Engineering Student | Seeking Summer Internship 2026

shima.g.mohamed@gmail.com | 01279541244 | linkedin.com/in/shimagamal | October Gardens, Giza, Egypt

PROFESSIONAL OBJECTIVE

Motivated Computer Science undergraduate specializing in AI, seeking a summer internship to apply hands-on skills in software development, machine learning, and mobile/web application development. Eager to contribute through teamwork, problem-solving, and a strong work ethic while gaining real-world experience that supports career growth and adds measurable value to the organization.

EDUCATION

Bachelor of Science — Computer Science (AI Track) | Beni-Suef National University Oct 2022 – Expected Jun 2026

- GPA: 3.5 / 4.0
- Relevant Coursework: Artificial Intelligence, Machine Learning, Natural Language Processing, Computer Vision, Big Data, Data Structures & Algorithms, Embedded Systems, Software Engineering

INTERSHIPS

AI & Machine Learning Intern | Huawei ICT Academy — Summer Training (1st Edition) Sep 2024 (2 Weeks)

- Completed intensive hands-on training in AI fundamentals, machine learning models, and data analysis techniques
- Gained practical experience with Huawei AI tools and frameworks in real-world application scenarios
- Skills: Machine Learning · Data Analysis · AI Model Deployment · Technical Communication · Team Collaboration

AI & Machine Learning Intern | Huawei ICT Academy — Summer Training (2nd Edition) Sep 2025 (2 Weeks)

- Completed a second round of Huawei AI training with deeper focus on advanced ML workflows and model evaluation
- Strengthened applied skills in AI pipeline design and collaborative technical project execution
- Skills: Advanced ML · Model Evaluation · Problem Solving · Professional Reporting · Agile Teamwork

AI Training Program | ITI (Information Technology Institute) — 2-Week Summer AI Training Jul – Sep 2024

- Focused on foundational AI concepts, supervised and unsupervised learning, and data preprocessing pipelines
- Skills: Python for AI · Data Preprocessing · ML Algorithms · Presentation & Communication

COURSES & SELF-LEARNING

Flutter & Mobile Development (Dart, Firebase, APIs, State Management) | Udemy 2024 – 2025

- Completed a comprehensive Flutter course covering Dart, cross-platform app development, Firebase integration, REST APIs, and state management (Provider/Bloc)
- Built multiple real-world mobile applications as part of the course

Backend Development with Django | Online Platform 2024 – 2025

- Learned Django framework for building robust backend systems including REST APIs, database management, and authentication

Prompt Engineering | Online Platform 2025

- Studied techniques for designing effective AI prompts, LLM integration, and context optimization for production use cases

CS50: Introduction to Computer Science | Harvard University / edX 2022 – Present

- Covered algorithms, data structures, C, Python, and web development fundamentals

Machine Learning | Kaggle Jan 2024

TECHNICAL PROJECTS

Flutter Mobile Applications (Multiple Apps)	2024 – Present
- Developed multiple cross-platform mobile applications using Flutter and Dart programming language - Implemented state management solutions, REST API integrations, and Firebase backend (Auth, Firestore, Storage) - Tools: Flutter, Dart, Firebase, REST APIs, State Management (Provider/Bloc)	
Car Price Analytics Dashboard (Dash App)	Apr – May 2025
- Built an advanced interactive analytics app with dynamic filters, summary metrics, and data visualizations - Tools: Python, Dash, Pandas, Plotly	
Computer Vision GUI — Image Processing	Feb 2025 – Present
- Designed a GUI for image upload, noise injection (salt & pepper), Gaussian smoothing, segmentation, and morphological operations - Tools: Python, OpenCV, Tkinter/PyQt	
Robotics — Vacuum Cleaner Simulation (ROS/Gazebo)	Feb 2025 – Present
- Created a realistic vacuum cleaner simulation replicating a real-world indoor environment - Tools: Gazebo, ROS, Python	
Grammar & Spell Checker Application (NLP)	Feb – Mar 2025
- Researched and implemented an NLP-based grammar and spell-checking application - Tools: Python, SpaCy / NLTK	
Diabetes Prediction (ML Classification & Regression)	Mar 2025 – Present
- Applied logistic regression, decision trees, and clustering to predict diabetes outcomes from medical data - Tools: Python, Scikit-learn, Pandas	
Mall Customer Segmentation	Nov 2024 – Jan 2025
- Performed exploratory data analysis and applied K-Means and hierarchical clustering to identify customer groups - Tools: Python, Pandas, Matplotlib, Seaborn, Scikit-learn	
Big Data Analysis — PySpark Case Study	Jan – May 2025
- Processed and analyzed large-scale datasets using PySpark within a distributed computing environment - Tools: PySpark, Python	
Proteus Simulation — Arduino-Based Embedded System	Mar – Apr 2025
- Simulated a complete embedded system including ultrasonic sensors, L298 motor driver, MOSFET, servo motor, and voltage regulator - Tools: Proteus, Arduino, C++	
Titanic Survival Prediction & House Price Prediction	Nov 2024 – Jan 2025
- Built classification models (Logistic Regression, Random Forest) and regression models (Linear Regression) on benchmark datasets - Tools: Python, Scikit-learn, Pandas, Google Colab	

TECHNICAL SKILLS

Programming Languages:	Python, Dart (Flutter), C++, Java, SQL
AI / Machine Learning:	TensorFlow, PyTorch, Scikit-learn, NLP (SpaCy/NLTK), Computer Vision (OpenCV)
Mobile Development:	Flutter, Dart, Firebase (Auth/Firestore/Storage), REST APIs, State Management (Provider/Bloc)
Web & Backend:	Django (Backend Framework), Flask, Dash, HTML/CSS basics
Data Science & Analysis:	Pandas, NumPy, Matplotlib, Seaborn, Plotly, PySpark, Jupyter Notebooks

Databases & Cloud:	SQL, Firebase, AWS/GCP (Basics)
Tools & DevOps:	Git, Docker, Linux, Google Colab, ROS, Gazebo, Proteus, Arduino IDE
Prompt Engineering:	Designing effective AI prompts, LLM integration, context optimization

SOFT SKILLS

Problem-Solving · Analytical Thinking · Technical Writing · Research & Presentation · Team Collaboration · Agile Methodologies · Independent Learning · Adaptability · Time Management

LANGUAGES

Arabic:	Native / Mother Tongue
English:	Proficient (Reading, Writing, Speaking)

CERTIFICATES

AI & Machine Learning — ITI Summer Training ITI Academy	Sep 2024
AI — Huawei Summer Training (1st Edition) Huawei ICT Academy	Sep 2024
AI — Huawei Summer Training (2nd Edition) Huawei ICT Academy	Sep 2024
